1. About Mutual

Mutual is an Australian, independently owned Investment Management Company and holds Australian Financial Services Licence (AFSL. No. 230347). It is both the RE and Investment Manager of the Mutual Income Fund (MIF). Its role includes investing in assets in accordance with the Fund's Constitution (Constitution) and any applicable laws. As RE, Mutual's responsibilities and obligations are governed by the Fund's constitution, the Corporations Act 2001 and general trust law. Mutual is responsible for the operation, investment, management and administration of the Fund.

About the investment manager

Established in 2010, Mutual specialises in investment operations that cover short-term securities, fixed interest, credit and ASX listed debt securities. Mutual manages retail funds and money on behalf of wholesale clients who are prudentially supervised, conservative or who operate subject to regulated investment regimes. Our investment strategies aim to provide capital protection and positive income, providing security with performance.

2. How the Fund works

The Fund is a managed investment scheme in which funds subscribed by individual investors are pooled to buy assets on behalf of all investors in the Fund. Assets are selected and managed by a professional investment management team (refer to mutualld.com.au).

The Fund is established under a Constitution which sets out your rights as well as the powers and responsibilities of Mutual. You can obtain a free copy of the Constitution by contacting us.

Investors are issued units which entitle them to a proportionate interest in the income and assets of the Fund. Investors do not have an entitlement to any particular asset of the Fund. The Fund's assets are valued in accordance with the Fund's Constitution based on market values. Unit prices will vary as the market value of the Fund's assets rise and fall.

A unit price is calculated each business day by dividing the Fund's net asset value (NAV) by the number of units on issue.

An allowance for transactional and operational costs will be calculated daily and accrued within the Fund's unit price.

An allowance for costs incurred in buying and selling Fund assets may be added to or subtracted from the Fund's unit price to determine an application price and a withdrawal price. The difference between the application price and the withdrawal price is known as the buy-sell spread (see '6. Fees and other costs' for more information).

When you invest in the Fund, you will be issued a number of units calculated by reference to the applicable unit application price.

When you withdraw from the Fund, your units will be withdrawn at the applicable unit withdrawal price.

The most recent unit prices are available at mutualld.com.au

Making an investment in the Fund

To invest in the Fund, complete the [Mutual Income Fund \(MIF\) Application Form](#). See 'How to apply' for more information

Applications and additional investments can be made on any business day. However, for unit pricing purposes, any applications we receive after 3pm Sydney time on a business day we will treat as though we received them on the following business day. You can make payment by Bpay or EFT. Mutual reserves the right to reject an application.

You can add to your investment at any time by submitting an **Additional Investment Form**. See mutualld.com.au.

Investments and withdrawals

You can make investments and withdrawals at any time based on the following requirements (which we may change at our discretion):

Initial investment	\$20,000
Additional investment	\$5,000
Withdrawals	\$5,000
Minimum account balance	\$20,000

Mutual is entitled to retain any interest earned on the application money before it is paid into the Fund.

Making a withdrawal from the Fund

You can withdraw all or part of your investment by submitting a **Withdrawal Form** and returning it to us via email.

We must receive withdrawal requests by 3pm Sydney time for same-day processing. If we receive a withdrawal request after 3pm, we will treat it as being received on the following business day. We usually pay withdrawal proceeds directly to your nominated bank account within five business days of receiving a withdrawal request.

Restrictions on withdrawals

In certain circumstances where we consider that accepting a withdrawal is not in the best interests of investors due to events outside our control, investors may not be able to withdraw their funds within the usual period or at all. We may suspend the withdrawal of units in the Fund for the duration of an event or circumstance. Our Constitution allows us to suspend withdrawals for a period of 30 days from the day on which units would have been withdrawn. In extreme circumstances, we can defer withdrawals for 12 months.

Changing your details, or investment

To change your contact details, please complete the [Change of Contact Details Form](#). To change your bank account details, please complete the [Change of Bank Account Details Form](#).

Income distribution

The Fund may earn income such as interest as well as net realised gains on the sale of underlying assets. Net income and net realised gains generated by the Fund are distributed to investors quarterly usually within 5 business days (and in any event within 30 days) following the end of 31 March, 30 June, 30 September and 31 December. The Fund's unit price will reflect the distribution paid out to Unitholders in the Fund.

2. How the Fund works (continued)

The distribution amount will vary between distribution periods due to market conditions and investment performance, and is not guaranteed.

Distributions must be made to unitholders of the Fund pro-rata to the proportion of units each Unitholder holds in the Fund at the end of each quarter. Distributions are deposited directly into a nominated bank account or reinvested as additional units. If you do not make a nomination in the Application Form, we will automatically reinvest any distributions on your behalf into the Fund.

Units issued on reinvestment of a distribution are issued at the unit price at the start of business on the first business day of the new distribution period.

Platform investors

If you are investing through a master trust, wrap account or other investor-directed portfolio-type service (collectively referred to as a 'platform'), it is important to understand that generally it is the platform that becomes the investor in the Fund, not you. It follows that the platform has the rights of an investor and we recognise it alone can exercise them. If you invest through a platform, you may also be subject to different conditions from those outlined in this PDS (such as procedures for making investments and withdrawals, cooling-off periods, cut-off times for transacting and additional fees and costs). Mutual is not responsible for the operation of any platform. If you invest through a platform, in addition to reading this PDS, you should check the documents and rules that apply to the platform service.

3. Benefits of investing in the Fund

Security: invests only in authorised investments.

Diversification: invests in a diversified range of issuers and maturities, which individual investors may not be able to otherwise access.

Regular income: potentially receive higher levels of income than term deposits, and the ability to receive income quarterly at the end of March, June, September and December.

Capital preservation: preserve capital through Mutual's prudent risk management and cautious approach that prioritises managing downside risk.

Access & Liquidity: highly liquid, redemptions are usually paid within 5 business days.

Professional Management: track record of a highly experienced investment management team specialising in fixed income portfolios.

4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

The significant risks of investing in the Fund are:

Market risk: economic, technological, political or legal conditions, and market sentiment, can, and do, change and this can impact the investments in those markets.

Investment Manager risk: the risk that Mutual fails to anticipate market movements, manage investments or execute the Fund's investment strategy effectively. Mutual aims to manage this risk by ensuring that its investment policies, procedures and Fund objectives are met and monitored at all times.

Credit risk: the risk of suffering a loss due to another party defaulting on its financial obligations. To mitigate this risk, the Fund only invests in the largest Australian banks (by market capitalisation), with a minimum aggregate exposure of 60% to ANZ, CBA, NAB and WBC.

Interest rate risk: changes in market yields can change the value of interest rate instruments. An increase in interest rates leads to a reduction in the value of a fixed interest investment and vice versa. This risk is greater for fixed interest instruments that have longer maturities. The Fund has negligible interest rate exposure, the interest rate duration is capped at 180 days.

Liquidity risk: the risk that securities that are not actively traded may not be readily converted to cash without some loss of capital.

Regulatory risk: all investments carry the risk that their value may be affected by changes in laws, particularly taxation laws.

Investment Selection risk: the risk that specific investments chosen for the Fund will not perform as well as others. Some factors that may affect the value of a security are investor sentiment, government policy, global events and management changes. The Fund's typical portfolio holdings of multiple securities represents high diversification.

4. Risks of managed investment schemes (continued)

General risk: it is important that you carefully consider the risks of investing in the Fund and that you understand:

- the value of investments will vary over time,
- the level of returns will vary and future returns may differ from past returns,
- returns are not guaranteed and you may lose some, or all, of your capital,
- laws affecting registered managed investment schemes may change in the future,
- and the level of risk for each investor will vary depending on a range of factors including:
 - age
 - investment time frames
 - where other parts of your wealth is invested, and
 - your risk tolerance.

5. How we invest your money

The Fund offers one investment option. The following information provides an overview of the Fund's return objective and investment strategy in respect of that option. You should consider the likely investment return and risk of the Fund and your investment time frame when deciding whether to invest in the Fund. The investment option will not change during the life of this PDS.

Description	The Mutual Income Fund actively manages a portfolio of debt instruments offered by Australian ADI's, with a minimum 60% exposure to ANZ, CBA, NAB and WBC.	Strategic asset allocation	The authorised investments of the Fund are:			
Investment objective	<p>The Fund aims to achieve superior outcomes across two investment objectives:</p> <ol style="list-style-type: none"> Greater income than the Bloomberg Ausbond Bank Bill Index (after fees) quarterly Greater total return than the Bloomberg Ausbond Bank Bill Index (after fees) over a rolling 12-month period 		Investments	Min	Max	Target%
			Cash	0%	10%	0%
			Senior Debt	30%	100%	45-65%
			Subordinated Debt	0%	60%	25-55%
			<ul style="list-style-type: none"> 100% Australian bank ADI debt exposure 100% Investment grade exposure Minimum 60% exposure to ANZ, CBA, NAB and WBC. Maximum 10% individual other Australian ADI bank exposure No Leverage No Derivatives 			
Benchmark	Bloomberg AusBond Bank Bill Index	Risk level	The Fund is considered a low to medium risk investment. The Fund aims to outperform the Bloomberg AusBond Bank Bill Index, with less risk over the longer term. See 'Risks of managed investment schemes' for more information.			
Investment strategy	<p>Mutual's investment process is based on using bottom-up fundamental analysis to determine the relative value and appropriateness of the various Australian bank bonds available within the market.</p> <p>The cornerstone of Mutual's investment philosophy is security with performance. The team's research process places its emphasis on mitigating downside risks by attempting to provide investors with a high level of capital preservation and outperforming the Bloomberg Index, while generating excess net cash returns to investors.</p>	Other investment considerations	Labour standards and environmental, social and ethical information are considered in investment decisions for the Fund. Mutual's policy is outlined on our website .			
Investment time frame	Greater than 6 months. This is a guide only, not a recommendation.	Other information	For up-to-date information about the Fund's investment strategy, performance and unit prices, please visit our website .			

6. Fees and other costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website www.moneysmart.gov.au has a managed funds fee calculator to help you check out different fee options.

This section shows the fees and other costs you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs as it is important to understand their impact on your investment.

Fees and costs summary - Mutual Income Fund

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs ^{1,2} The fees and costs for managing your investment	0.3905% p.a. of the Gross Asset Value (GAV) of the Fund	Calculated daily as a percentage of the Gross Asset Value (GAV) of the Fund, payable quarterly in arrears from the Fund
Performance fees ^{1,3} Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable
Transactional and operational costs ^{1,4} The costs incurred by the scheme when buying or selling assets	0.0280% p.a. of the Gross Asset Value (GAV) of the Fund	Calculated daily as a percentage of the Gross Asset Value (GAV) of the Fund, payable as they are incurred and capped at 0.0280% p.a.
Member activity related fees and costs (fees for services or when your money moves in or out of the product)		
Establishment Fee The fees to open your investment	Nil	Not applicable
Contribution Fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	Nil	Not applicable
Withdrawal Fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit Fee The fee to close your investment	Nil	Not applicable
Switching Fee The fee for changing investment options	Nil	Not applicable

¹ Fees are inclusive of GST and net of any applicable Reduced Input Tax Credits (RITC).

² The Fund's indirect costs form part of management fees and costs and are estimated to be 0.0139% which is based on the costs incurred for the 12 months to 30 June 2025 as a percentage of the average gross asset value of the Fund during that period.

³ The Constitution allows for performance fees to be charged to the Fund, but this option has not been activated in the past and is not expected to be activated in the future.

⁴ Transactional and operational costs includes brokerage, buy-sell spread, settlement costs (including custody costs), clearing costs and stamp duty on an investment transaction. The RE currently does not apply a buy-sell spread to the Fund.

6. Fees and other costs (continued)

Management fees and costs

This is the fee we charge for managing the investments, overseeing the Fund's operations and providing access to the Fund. The management fee is calculated daily as a percentage of the GAV of the Fund and payable quarterly in arrears. The fee is 0.3905% p.a. (inclusive of GST and net of reduced input tax credits) or \$390.50 including GST and net of reduced input tax credits annually for a \$100,000 investment.

The Fund's Constitution allows us to be reimbursed for properly incurred costs paid on behalf of investors. These include audit, printing, postage, pricing and regulatory costs. The fee includes an estimate of the out-of-pocket costs that Mutual is entitled to recover and is calculated daily as a percentage of the GAV of the Fund and payable as they fall due. Mutual estimates that these costs should not exceed 0.0139% p.a. (inclusive of GST and net of reduced input tax credits) or \$13.90 including GST and net of reduced input tax credits annually for a \$100,000 investment. We currently pay these costs of the Fund from our management fees and do not recover these from the Fund.

Abnormal expenses

In circumstances where abnormal expense events occur, we may decide not to recover these abnormal expenses from the Fund. If reimbursement is required, investors will be notified.

Performance Fees

The Constitution allows for performance fees to be charged to the Fund, but this option has not been activated in the past and is not expected to be activated in the future. If it is activated, investors will be given 30 days' notice of the change.

Transactional and operational costs

The Fund may incur transactional and operational costs such as transactional brokerage, clearing costs, costs associated with the processing and settlement of transactions (custody inclusive), stamp duty, the costs of acquiring or selling interests in the Fund and the costs of (or transactional and operational costs associated with) derivatives.

Transaction costs are accrued daily and reflected in the Fund's unit price. As these costs are factored into the value of the Fund's assets and reflected in the unit price, they are an additional cost to you (where they are not recovered by a buy-sell spread). The Fund will pay these costs as they fall due. The Fund's net transactional and operational costs are capped by the RE at 0.0280% p.a. (inclusive of GST and net of reduced input tax credits) which amounts to \$28.00 including GST and net of reduced input tax credits annually for an average account balance of \$100,000 invested in the Fund.

Buy-sell spread

The buy-sell spread is a type of transactional cost that may include brokerage, transaction costs, stamp duty and other government taxes or charges. The buy-sell spread for the Fund is stated as a percentage of the NAV of the Fund and is the difference between the application price and the withdrawal price.

We currently do not apply a buy-sell spread to the Fund. However, in the future we may apply a buy-sell spread. In those circumstances, we will notify investors of any changes on our website.

Fee changes

Fees and costs can change at any time in accordance with the Fund's Constitution. If fees and charges payable to the RE increase, the RE will give investors not less than 30 days notice before the change occurs.

Other costs, such as the buy-sell spread may change at any time without prior notice to you. Transactional and operational costs may vary from the amount estimated in this PDS, however will always fall under the advised cap. Investors will be notified of any changes relating to the above, via our website.

Deferred Fees

Under the Constitution we may waive or defer part or all of our fees for a financial year and claim them over subsequent years.

Other fee information

If you pay by Bpay or electronic funds transfer ("EFT") and there are insufficient cleared funds in your account, your bank may charge us a fee. By signing the application form, you authorise us to recover these fees from your investment.

Fee calculators

ASIC provides a fee calculator on its MoneySmart website (moneysmart.com.au) which can be used to calculate the effect of fees and costs on your investment in the Fund.

6. Fees and other costs (continued)

Example of annual fees and costs

This table gives an example of how the fees and costs of the Fund can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	0.3905% p.a. of Gross Asset Value	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$195.25 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transactional and Operational costs	0.0280% p.a. of Gross Asset Value	And , you will be charged or have deducted from your investment \$14.00 in transactional & operational costs
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and put in an additional \$5,000 during that year, you would be charged fees and costs in the range of: \$209.25 to \$230.18* What it costs you will depend on the investment option you choose and the fees you negotiate.

*Additional fees and costs may apply. Note that Government fees, duties and bank charges may also apply to investments and withdrawals.

7. How managed investment schemes are taxed

Warning: Investing in a Managed Investment Scheme is likely to have tax consequences and we strongly advise that you seek professional tax advice before investing in the Fund.

The Fund is a Managed Investment Trust (MIT). It is intended that all determined trust components (i.e. assessable income, exempt income and non-assessable non-exempt income) will be attributed to members each year so that the Fund itself is not subject to tax. The Fund does not pay tax on behalf of investors. As an investor you will be assessed for tax on your share of the Fund's taxable income, including any net capital gains. The amount attributed to an investor will be disclosed on a statement that will be issued following the end of the financial year.

In summary, when investing in the Fund, investors should note:

- managed investment schemes do not pay tax on behalf of investors.

- net income and realised net capital gains generated by the Fund are typically fully distributed to investors who are in turn assessed for tax on their share of the distribution based on their individual circumstances.
- investors may be liable for tax on capital gains realised on the sale of units in the Fund, either by withdrawal, switch or transfer.

This is only a brief summary of the taxation information which is general in nature and only relates to Australian residents. It does not constitute personal advice. You should consult your own advisers for your particular circumstances.

8. How to apply

Application process

To make your investment, complete the [Mutual Income Fund \(MIF\) Application Form](http://www.mutualld.com.au), available at www.mutualld.com.au and send your application money in accordance with the instructions on the form.

As part of the application process, we are required by law to verify your identity before accepting your application. We are unable to process incomplete applications. If we do not receive all of the information and documents required (AML/

CTF information essential⁵), we will hold your investment amount until we have received all information.

By applying for units, you agree to be bound by the terms of the Fund Constitution and the PDS, both as amended from time to time, while you hold units in the Fund.

⁵The AML/CTF Laws refer to the obligations arising under the Anti-Money Laundering & Counter Terrorism Financing Act 2006 (Cth).

8. How to apply (continued)

Cooling-off period

Investors who are retail clients (as defined in the Corporations Act) have a 14-day cooling-off period after making an application for units in the Fund during which time they may cancel their investment by notifying the RE in writing or electronically. This cooling-off period will commence from the earlier of the:

- investor's receipt of confirmation of their investments, and
- end of the fifth day after the issue of units to the investor.

If an investor cancels their investment during this period, the amount repaid to them is adjusted to allow for market movements, reasonable administration and transaction costs and any relevant taxes or duties.

Investments made through the distribution reinvestment plan are not subject to the cooling-off provisions. Indirect investors should contact the operator of their platforms about any right to cooling off.

9. Other information

Complaints procedure

The RE has arrangements in place to consider and seek to resolve any complaints within 30 calendar days of receipt. If you have a complaint, you may contact us by email, telephone or in writing to:

The Complaints Officer, Mutual Limited, Level 17, 447 Collins Street, Melbourne, Vic 3000

Email mutual@mutualld.com.au
Phone +61 3 8681 1900

Mutual is a member of AFCA, which is an external dispute resolution scheme that deals with complaints from consumers about financial services and products. If you are not satisfied with our response to your complaint, you may lodge a written complaint with the Australian Financial Complaints Authority (AFCA) for an independent review of your matter.

AFCA's contact details are: Australian Financial Complaints Authority Limited, GPO Box 3, Melbourne, VIC 3001

Your Privacy

We respect the importance of maintaining the privacy of any personal information that you are required to provide as part of your application to invest in the Fund. We may disclose your personal information for permitted purposes to agents or third party service providers when required by law. If you notify us that you have a financial advisor, whether on your application form or in writing, you agree that details of your investment will be provided to them. You can request access to your personal information or a copy of our Privacy Policy by contacting us. Our Privacy Policy is also available on our [website](#).

Overseas investors

The Foreign Account Tax and Compliance Act (FATCA) is an anti-tax evasion regime enacted by the United States government to identify US taxpayers using offshore accounts. In June 2014, the Australian government passed legislation giving effect to Australia's commitment to FATCA. From 1 July 2014, there has been a requirement to ask investors whether they are US citizens or US residents and to provide information on those who answer 'yes' to the Australian Taxation Office.

Legislation introducing a single global standard on the collection, reporting and exchange of financial account information on foreign tax residents (CRS) took effect on 1 July 2017. Under CRS, we may collect and report to the ATO account information on non-residents. The CRS regime applies to 70 jurisdictions. For new accounts for non-Australian investors, we may collect additional information about an investor's residence and taxpayer identification.
